SAWE Central European Chapter - Reload

Dear Mass Properties Engineering Colleagues,

I hope this email finds you all well. I am contacting you, on behalf of the SAWE Central European Chapter, to debrief you about the current status of the Chapter.

During the last years we have faced a worldwide difficult and challenging times, from a personal and from a professional point of view. COVID19 has impacted our lives, our industries and commerce hard. This challenges us to find ways to mitigate and to solve the problems we are facing with hope and determination.

Now, while we recover the new normality, we can easily recognize how much the business environment and the ways of working have changed. One of those changes we have detected in Europe is a significant rotation of the Mass Properties engineering jobs. A significant number of experienced senior engineers are retired, in many cases without a proper knowledge transfer due to work restrictions during the lockdowns. At the same time a significant number of young newcomers to the profession are arriving to the teams. This situation has been assessed by the Chapter Executive Committee. The Chapter Executive Committee has launched a project to face the challenges above by reloading its activities.

During last years, the activity was focused on keeping the contact with the International Board and to promote the attendance to the International Conferences. We are convinced that now is the right time to foster the sharing of the knowledge available in our profession and the communication between us.

We would like to invite you to attend a virtual awareness session on the 8th of March at 18:00 (CET time) where we will explain the changes that we propose to implement in the Chapter, the strategy to reload the Chapter activity and the route to achieve it. We would like as well in that session to get your feedback, comments and proposals to answer all your questions. It will be also a perfect opportunity to meet all of you after such a long time. In advance to that session, please find attached a small presentation summarizing the key points on the agenda.

In case of comments and questions please contact us via our new [webpage](#).

Please forward this letter to all interested.

Looking forward to seeing you soon, sincerely,

Rubén González González
SAWE Central European Chapter President
