# Welcome & Chapter status introduction

## Why a Chapter re-load?

- Business environments and ways of working change in post COVID19 time.
- Significant number of experienced mass properties engineers retiring & high number of newcomers.
- SAWE Central European Chapter Membership reduction.
- European members and companies international presence reduction.

## Executive Committee SWOT analysis

- CHAPTER COMPETITIVE ADVANTAGES
  - The international diversity of SAWE in Europe (cultures and companies) and the professional experience of their members as main attractiveness..
  - The connexion with other manufacturers and companies in technical forums developing international standards and processes.
- POTENTIAL WARNINGS
  - The lack of activity, visibility and communication will accelerate the membership loosing.

# SAWE Chapter Strategy & Objectives

## ➤ Chapter Governance

- Reinforce the Chapter leadership and facilitate the active participation of the members
  - To establish Exec Committee regular meetings & enable the election of new officers
  - To develop the Officers role
  - To develop Comms Plan (Internal & External)

## ➤ Membership

- Recover affiliation from european companies ensuring industries diversity coverage
  - To recover affiliation up to 90 members in 3 years.

## ➤ Training

- Secure the knowledge transfer cross industries and generations
  - To offer mentoring
  - To identify and develop required trainings

## ➤ Industry & Corporations

- Involve companies and build close collaboration links
  - To recover the corporate sponsorship
  - To identify the top companies and mass properties leaders of each industry
  - To establish a network cross-industries

# SAWE Chapter Strategy & Objectives

## ➤ Technical and S&P Involvement

- **Foster the technical exchange available in our profession**
  - To promote technical forums/workshops on specific topics according Industry needs
  - To develop a plan for promoting the technical studies/papers development
  - To explore LTH technical collaboration

## ➤ Universities Involvement

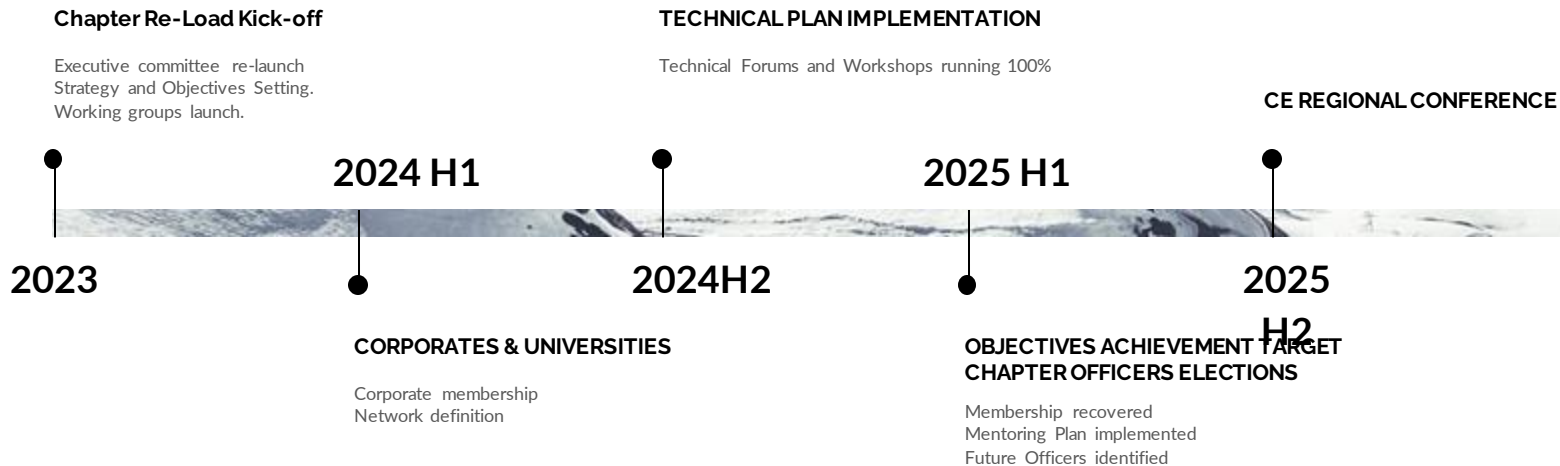

- **Establish a strong and firm collaboration with the European Universities in order to promote our discipline**
  - To establish regular meetings with engaged Universities and incorporate new ones
  - To create common projects and lectures in the identified areas during the regular meetings

## ➤ SAWE International involvement

- **Increase european presence in the international Board**
  - To identify potential future officers
  - To prepare a develop plan for future leaders

# Roadmap

# SAWE Chapter Open Forum
